REACH – Declaration for Blum Products

Regulation EC 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

The REACH regulation stipulates that all chemical substances that are produced in quantities greater than one ton per year may only be marketed in the European Union, if they have been pre-registered or registered.

The Julius Blum GmbH produces no chemical substances. Julius Blum GmbH only sells products which are defined as articles and not as substances resp. preparation (according to Article 3, Definitions). In line with REACH, Julius Blum is a downstream user and is not subject to registration.

In our own interest and in the interest of our customers we are in constant dialogue with our suppliers in order to guarantee that all delivered products comply with REACH.

Blum products are free of any substances listed in annex XIV of REACH ("Authorization List", <https://echa.europa.eu/de/authorisation-list>) and comply with all regulations in annex XVII ("Restricted Substances", <https://echa.europa.eu/de/substances-restricted-under-reach>).

However, some Blum products contain components that prohibit SVHC substances. In order to meet our obligation to provide information, we have registered all affected components and products in the SCIP database. If required, we can provide the article-related SCIP numbers upon request.

It is our declared goal to substitute these alloys step by step, wherever possible and economically viable.

According to our current state of knowledge, all other products do not contain any substances listed on the Candidate list of Substances of Very High Concern for Authorization (SVHC, version of January, 23, 2024, 240 substances) (<https://echa.europa.eu/de/candidate-list-table>) in a fraction of >1000 ppm based on the individual components.

If substances are added to the SVHC list, which are contained in our products, we will comply with the obligation to inform under Article 33.

If you have further questions about the implementation of REACH regulation at Julius Blum GmbH, please do not hesitate to contact us.

Our person in charge of REACH: Stephan Winkler (stephan.winkler@blum.com)
